COFFEE AT ITS BEST

## A Prime address for gourmets

Dallmayr is a luxury delicatessen and food store in Munich, Germany, dating back to the 17th century. In the period around 1900 the company included Bavarian Royal family and the German Imperial court in Berlin amongst its prestigious clients. About 1.8 million people visit the main store every year, including members of the high society and VIPs. Besides gourmet food Dallmayr also sells a luxury brand of coffee and operates a restaurant, a catering service and other food related services. The aim of the business is to offer only the best and the finest.

## A feeling for quality

Dallmayr Coffee is one of the leading coffee brands in Germany. The secret of its unmistakable taste begins with the raw coffee beans. Dallmayr only uses the finest highland varieties from the best growing areas in the world. From generation to generation the coffee experts pass on their experience – their flair for recognising quality, their skill at composing the different flavours which make up the Dallmayr blends and their talent for roasting which ultimately makes Dallmayr a perfect pleasure.
